

THE GAZMEN TO RELEASE NEW SINGLE “PUSHIN” ON G-MINOR RECORDS.

[Differdange – March 21st, 2019] – **The Gazmen**, a Luxembourgish pop-soul-funk project, are releasing their new single “Pushin” with the G-Minor Records label. The song will be available on iTunes from April 2019 on.

Back to where it all began: The Gazmen join forces again with the American singer Klyive, a collaboration that had already matched in 2015 with the release of the song “Feel Good“. Klyive’s soulful, powerful and yet also fragile voice blends perfectly with the groovy and sarcastic mood from “Pushin“. The song is about the relationship ‘game’ and the sometimes evil and desperate ways that both lovebirds can’t control nor change for the better.

The Gazmen is a musical project encompassing pop, soul and funk. It is defined by varied collaborations from the producers team Aaron Baustert, Jeff Herr and Joël Heyard. The three founding members compose and produce the music, which is recorded and performed by different musicians, always aiming to place the music itself in the forefront.
