

THE GAZMEN (FEAT. LATA GOUVEIA) TO RELEASE NEW SINGLE *HOLDUP* ON G-MINOR RECORDS.

[Differdange –06/06/2018] – **The Gazmen**, a Luxembourgish pop-soul-funk project, are releasing their new single *Holdup* with the G-Minor Records label. This song will be available on iTunes from 15/06/2018.

They did it again! After the national success from their previous single *A little like that*, the Gazmen are back with their latest single *Holdup*, a breathtaking and catchy song about love, addiction and devotion. No ransom payment required, the sweet lollipops will do just fine to enhance the seductive actions taken by the lovebird in order to convince the chosen one. Only the sky is the limit!

The extended collaboration with the Luxembourg-based Portuguese Folk-Rock Singer/Songwriter Lata Gouveia ensures the same lead vocalist as on the previous Gazmen single *A little like that*, with Lata's authentic and smoky voice being the perfect match to bring *Holdup* to the standard of a high quality tune.

The Gazmen is a musical project encompassing pop, soul and funk. It is defined by varied collaborations from the producers team Aaron Baustert, Jeff Herr and Joël Heyard. The three founding members compose and produce the music, which is recorded and performed by different musicians, always aiming to place the music itself in the forefront.
